

The background is a dark blue-grey gradient. In the top-left corner, there are two overlapping geometric shapes: a blue parallelogram and a light green parallelogram. In the bottom-left corner, there is a circular inset showing a detailed, high-contrast image of a circuit board. In the top-right corner, there is a faint, grey, 3D-rendered pattern of interlocking cubes or a circuit layout.

FNB Sales Analysis

Overview

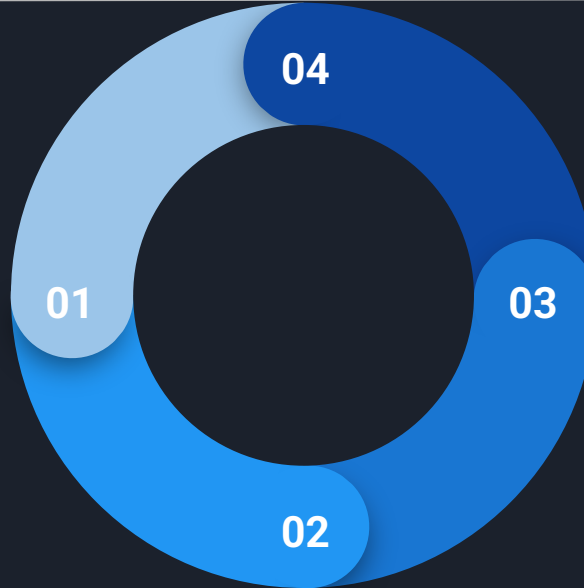

This dataset contains i daily sales time series of 1,053 records covering 30 December 2013 to 16 November 2016. Each row records Sales, Cost_Of_Sales and Quantity_Sold, alongside calendar fields for weekday, month and year. Day_Of_Week actually holds the date, while time_slots and time_Bucket are empty or constant and can be dropped. Coverage is uneven: 2013 has two days and 2016 ends mid-November. Cost of sales exceeds sales on about 58 percent of days, so the cost definition should be verified. The data suits trend, seasonality, margin and forecasting analysis.

Insights

Day of week

- **Strongest days:** Saturday averages R279K a day and Friday R245K. Both are about double any weekday.
- **Weakest day:** Tuesday averages R137K. Sunday (R138K) and Thursday (R141K) are close behind.
- So weekends carry the volume, while Monday to Thursday stay flat at R137K–R156K.

Months (seasonality)

- **Strongest months:** May averages R228K a day, then April (R212K), June (R206K) and December (R203K).
- **Weakest months:** July averages R128K a day, then October (R141K) and January (R141K).
- The busy season runs roughly April to June. There's a sharp drop in July.

Insights page 2

Year over year (2013 only has 2 days of data, so it's left out)

- 2014: R75.4M in sales, margin +3.0%.
- 2015: R64.0M in sales, down about 15%. Margin fell to -6.1%, the worst year.
- 2016 (321 days): R47.0M in sales, down about 27% on 2015 even allowing for the missing days. Margin improved to -2.0%.
- Sales have fallen steadily since 2014

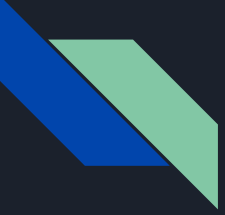

Recommendations

Protect weekend trading.
Consider promotions to lift
Tuesdays and Thursdays.

Look into why costs spike
in September and
November.

Find out what changed in
late 2016 and keep doing
it.

Thank you!
